DEFY YOUR DIAGNOSIS

Lorraine knows firsthand how a medical diagnosis for an incurable disease can test your faith. Perhaps you are fortunate enough not to have been diagnosed with an incurable disease—consider yourself blessed! We all have ideas, thoughts, beliefs, and attitudes that we accept that just aren't true, and they limit us. These negative attitudes, fears, and false beliefs are all barriers preventing you from moving forward to reaching your full potential.

Through her own trials, Lorraine has developed principles designed to help others overcome their obstacles and defy **their** diagnosis, whether medical, mental, professional, or relational.
